## **Hayato Tada (Kanazawa University, Japan)**

Dr. Hayato Tada is currently serving as an Assistant Professor at Kanazawa University. He graduated from Kanazawa University in 2003, and began his career as a medical doctor at Kanazawa University Hospital. He earned his PhD in 2011 from Kanazawa University, focusing on cardiovascular genetics. He spent time at MGH (Boston, USA) from 2012 to 2014, collaborating with Dr. Sekar Kathiresan, where he helped develop a polygenic risk score. He is currently the Vice Chair of the FH committee for the Japan Atherosclerosis Society and is dedicated to improving the prognosis for FH patients.
